

ANNUAL REPORT OF THE

JUVENILE JUSTICE SUBSTANCE ABUSE MENTAL HEALTH PARTNERSHIPS (JJSAMHP)

2018-2019

NC DEPARTMENT OF
**HEALTH AND
HUMAN SERVICES**
Division of Mental Health,
Developmental Disabilities
and Substance Abuse Services

UNC
GREENSBORO
Center for Youth, Family
and Community Partnerships

The Juvenile Justice Substance Abuse Mental Health Partnerships are partially supported by the NC Division of Mental Health, Developmental Disabilities and Substance Abuse Services and works in collaboration with the North Carolina Department of Public Safety, Division of Adult Corrections and Juvenile Justice. Funding is also provided by the Substance Abuse and Mental Health Services Administration (SAMHSA, Center for Substance Abuse Treatment (CSAT)). Technical Support is provided by the University of North Carolina at Greensboro, Center for Youth, Family and Community Partnerships. This report was generated by the staff and students at the UNCG Center noted above in collaboration with NCDMHDDSAS and NC DPS-DACJJ. Please address correspondence to Sonja Frison, Ph.D., MPH, UNCG-CYFCP, 1001 West Gate City Blvd, Greensboro, NC 27403 or sfrison@unca.edu or Ruby Brown-Herring or ruby.brownherring@dhhs.nc.gov, or Candice Moore, Candice Moore, NC Department of Public Safety, candice.w.moore@ncdps.gov.

APPENDIX A – JJSAMHP MONTHLY DATA REPORT	67
APPENDIX B - Data Request Questions Provided to JJSAMHP Teams	72

Section A: Overview of the Juvenile Justice Substance Abuse Mental Health Partnerships (JJSAMHP)

The Juvenile Justice Substance Abuse Mental Health Partnerships (JJSAMHP) are local teams across North Carolina working together to deliver effective, family-centered services and supports for juvenile justice-involved youth with substance use and/or mental health challenges. The partnerships require an organized, person-centered system that operates under the following System of Care principles:

- ❖ Family Driven & Youth Guided
- ❖ Child & Family Team Based
- ❖ Natural Supports
- ❖ Collaboration
- ❖ Community Based
- ❖ Culturally & Linguistically Competent
- ❖ Individualized
- ❖ Strengths Based
- ❖ Persistence
- ❖ Outcomes and Data Based Driven

The Partners can include any individual/agency in the community that wants to help address these issues but at a minimum, includes:

JJSAMH Partnerships must involve LME/MCO staff and JJ Leadership

- A Local Management Entity/Managed Care Organization
- Local Juvenile Justice Court Leadership
- Local Treatment Provider(s)
- Coordination with Juvenile Crime Prevention Councils

The Partnerships work together to ensure the following for juvenile justice involved youth:

- ❖ Completion of comprehensive substance use and mental health clinical assessments by appropriately licensed substance use and mental health treatment professionals
- ❖ Provision of evidence-based treatment options to youth referred for substance use, mental health and co-occurring disorders by appropriately licensed and qualified mental health professionals
- ❖ Use of the Child and Family Team Meetings
- ❖ Involvement of Family Members and Youth Advocates
- ❖ Involvement of Juvenile Crime Prevention Councils in programming

Additionally, the JJSAMHP teams are requested to problem solve about the following domains:

- Discussion of funding such as Medicaid, Health Choice, Child Mental Health and Child Substance use funding in collaboration with their LME/MCO financial liaisons
- Utilization of methods/practices for engaging youth and families
- Increase accessibility of services through offering after hour or non-traditional service provision times
- Providing choice for families in service locations including at JJ offices, in homes, and in the community
- Establishing a relationship amongst providers to develop a service array
- Work on decision making about processes for out of home placements
- Assist in training staff on Evidence Based Treatments (EBT) and Evidence Based Practices (EBP)

This Annual Report provides information about the JJSAMHP 2018-2019 fiscal year. Although no report can capture every detail of a statewide initiative, the purpose of this document is to provide the main highlights and overall information about JJSAMHP. It is divided up in the following sections:

- ◆ **Section A** is this overview of the document.
- ◆ **Section B** outlines the Local Management Entities (LME)/Managed Care Organizations (MCOs) involved with JJSAMHP
- ◆ **Section C** outlines the JJSAMHP Service Domains that are expected to be addressed by each JJSAMHP local team. This section also includes overall statistics for the JJSAMHP across all sites.
- ◆ **Section D** outlines Activities and the Accomplishments of the overall JJSAMHP.
- ◆ **Section E** details the local JJSAMHP processes including screening, assessment, and admission to treatment for each local team as reported at the end of the fiscal year 2018-2019.

Section B: Local Management Entity/Managed Care Organization Involvement

As noted, JJSAMHP teams must involve the Local Management Entity/Managed Care Organization (LME/MCO). The role of the LME/MCO is to help to ensure that the principles of the JJSAMHP are facilitated through the local teams and to support local team activities. During this fiscal year, there were 7 LME/MCOs associated with JJSAMHP serving 97 counties. Within the LME/MCO’s, there are 21 locally driven teams that work to address juvenile justice involved youth and family needs.

The major teams associated with JJSAMHP are as follows (with their 2018-2019 nomenclature):

Alliance Health (3 teams)	Cardinal Innovations Healthcare Solutions (6 teams)	Eastpointe (3 teams)
Partners Behavioral Health Management (3 teams)	Sandhills Center (2 teams)	Trillium Health Resources (2 teams)
Cardinal/Trillium Joint Team (1 Team)	Vaya Health (1 team)	

Juvenile Justice Substance Abuse Mental Health Partnerships Across North Carolina

Section C: JJSAMHP Service Domains

Although local teams define service provision within their area, there are five domains that are expected to have some uniformity to ensure that youth engage in services based on best practices. These five domains are: Screening/Referral, Assessment, Engagement, Evidence Based Treatments, and involvement with Juvenile Crime Prevention Councils. Most of these overall domains are represented by a national initiative, Reclaiming Futures (RF). Reclaiming Futures “helps teenagers caught in cycle of drugs, alcohol and crime. The project began in 2001 with \$21 million from Robert Wood Johnson Foundation (RWJF) for 10 pilot sites to create a six-step model that promotes new standards of care and opportunities in juvenile justice” (<http://www.reclaimingfutures.org>)

The RF six steps include a Coordinated Individualized Response of: 1) Initial Screening; 2) Initial Assessment and 3) Service Coordination and Community Directed Engagement plan for: 4) Initiation; 5) Engagement; and 6) Transition. Although all of the JJSAMHP teams do not have to follow this model (there are seven RF sites in NC), the concepts are complementary to JJSAMHP service domains. Please note these five domains below. It is also noted that most of the team processes within each of the first four domains for each LME/MCO are outlined in the JJSAMHP Compendium of Services, which can be viewed online at: <http://www.jjsamhp.org/publications/>.

JJSAMHP Service Domains

JJSAMHP Domain I: Screening and Referral

The first domain is Screening and Referral. According to Reclaiming Futures, screening involves usage of a reputable tool to identify youth who potentially have a substance use problem. In the case of JJSAMHP, the tool should also be able to detect possible mental health challenges. 100% of the JJSAMHP teams identify a uniform screening process from JJ to a local provider. The tool that is used in North Carolina is the Global Appraisal of Individual Needs- Short Screener (GAIN-SS).

Based on data submitted by the local teams, there were 2,706 referrals from Juvenile Justice (JJ) screening to local provider(s) for assessments from July, 2018 to June, 2019. This averages to 226 referrals per month. For the first half of the fiscal year (July through December) there were 1,098 referrals and for the second half of the fiscal year (January through June), there were 1,608 referrals. To determine the number of referrals for each team across this time period, please see the section entitled "Local Team Processes." The graphs below represent the total referrals completed across all JJSAMHP teams for 2018-2019, and then a comparison of this fiscal year with the eight previous fiscal years.

JJSAMHP Monthly Referrals-Fiscal 2012-2019													
Fiscal	Jul	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Total
2019	221	177	113	198	218	171	264	288	303	293	258	202	2706
2018	216	198	153	214	215	184	222	259	272	236	250	228	2647
2017	209	200	213	215	209	194	214	294	274	254	280	249	2805
2016	238	216	249	252	241	207	232	271	350	285	316	329	3186
2015	255	245	215	295	280	275	323	278	363	334	312	346	3521
2014	247	209	197	323	265	249	259	245	316	301	259	246	3116
2013	211	238	245	271	267	235	263	279	313	289	232	241	3084
2012	240	203	257	251	309	209	299	249	317	315	332	250	3231

JJSAMHP Domain II: Assessment

The second JJSAMHP domain is Assessment. The Assessment tool used by JJSAMHP teams must gather information on substance use and mental health challenges. According to Reclaiming Futures, a comprehensive assessment involves usage of a tool to ascertain a wide range of individual and family risk factors, service needs, as well as the youth's strengths and assets. There is data collection on types of Evidence Based Tools that teams utilized to assess youth once they were referred to a provider. The tools that were collected this year included the Global Appraisal of Individual Needs (GAIN), the Child Behavior Checklist, and the Comprehensive Health Assessment for Teens (CHAT) or some combination. All 21 teams reported using an evidence based (valid and reliable) assessment tool for mental health and/or substance use. The chart below outlines the most frequently cited valid and reliable assessment tools used by teams.

JJSAMHP Monthly Assessments Completed Across All Sites from July 2018-June 2019

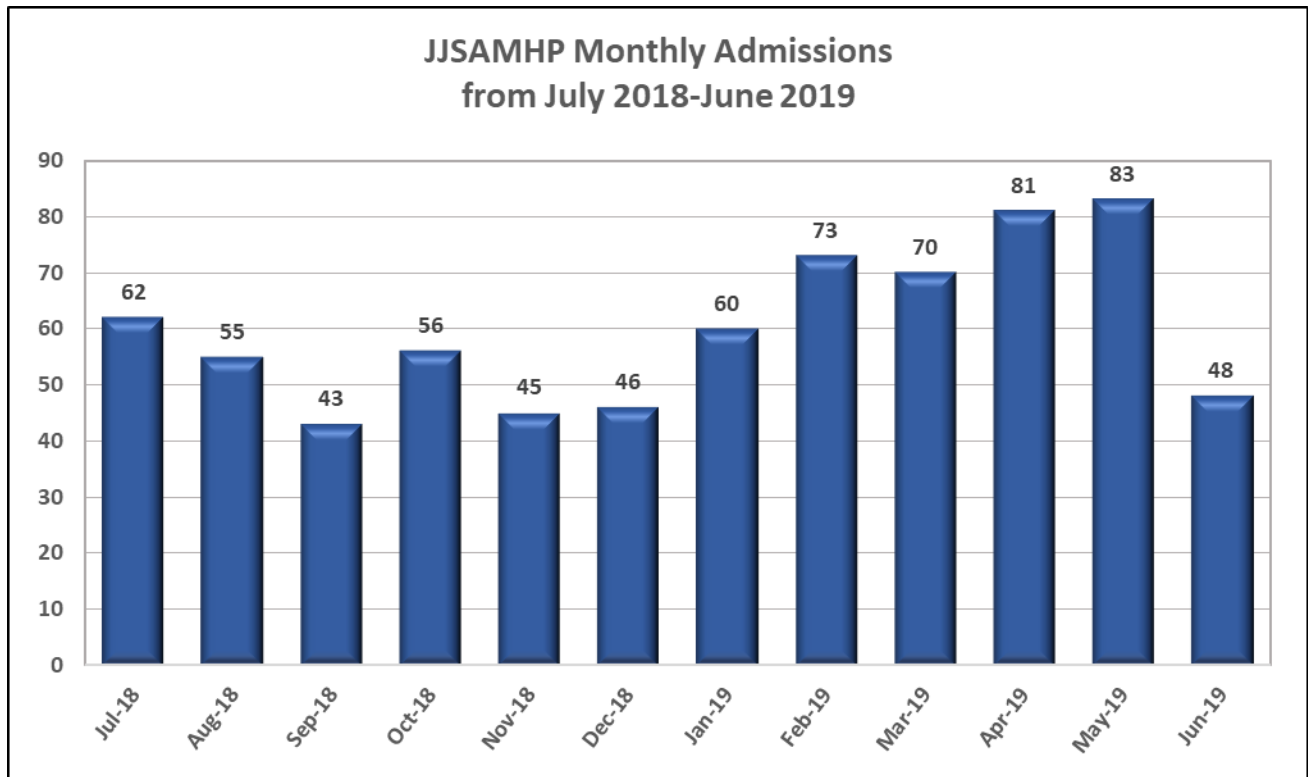

Additionally, teams collect data on the number of assessments completed each month. Based on data submitted by the local teams, there were 2,128 assessments completed by partnering providers for the JJSAMHP during 2018-2019. This represents 80% of the youth referred being assessed. This is the same as the last fiscal year (80%). This averages to 177 assessments per month. For the first half of the fiscal year (July through December) there were 859 assessments and for the second half of the fiscal year (January through June), there were 1,269 assessments. To determine the number of assessments for each LME/MCO across this time period, please see the section entitled “Local Team Processes.” The chart below represents the total assessments completed across all JJSAMHP sites for 2018-2019 and the next graph represents a comparison of this fiscal year with the previous eight fiscal years.

JJSAMHP Monthly Assessments-Fiscal 2012-2019													
Fiscal	Jul	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Total
2019	187	150	96	164	139	123	191	206	232	231	227	182	2128
2018	181	167	121	164	159	143	173	185	216	197	234	187	2127
2017	171	147	144	113	143	125	182	195	218	165	231	211	2045
2016	165	155	196	171	169	150	151	201	171	219	190	173	2111
2015	211	198	173	237	191	188	250	154	268	227	201	202	2500
2014	194	148	126	221	148	147	176	196	244	223	208	165	2196
2013	188	178	168	207	161	173	221	199	206	270	155	176	2302
2012	196	174	205	197	208	179	195	203	187	230	244	187	2405

JJSAMHP Domain III: Engagement

The third JJSAMHP domain is Engagement—particularly utilizing System of Care Principles. Although engagement can entail various areas, including partnering with families and youth, the focus was

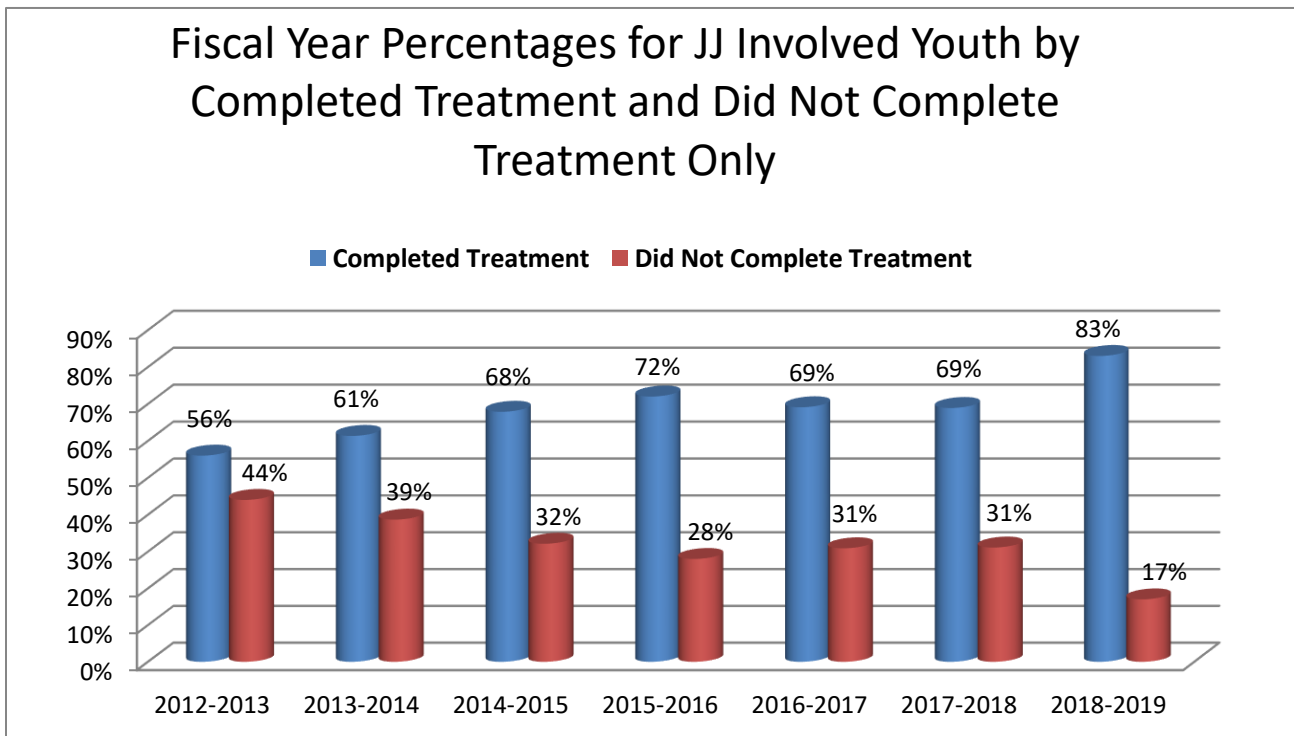

ensuring admission to a partnering provider who agreed to include Child and Family Teams as part of the continuum of care. 100% of the teams cite regular usage of Child and Family Teams. For this fiscal year, there were 722 admissions to JJSAMHP providers during 2018-2019. It is noted that several of the teams do not have the capability to track when referring youth outside of the partnering provider array, so there are likely youth who are referred to another provider but not captured in these numbers since it is based on admissions by partnering providers only. To determine the number of admissions to JJSAMHP providers for each team across this time period, please see the section entitled “Local Team Processes.” The following graphs represent the total admissions to JJSAMHP partner providers for 2018-2019 and then a comparison of this fiscal year with the previous fiscal years.

JJSAMHP Monthly Admissions-Fiscal 2012-2019													
Fiscal	Jul	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Total
2019	62	55	43	56	45	46	60	73	70	81	83	48	722
2018	54	63	46	65	54	46	81	59	77	63	102	75	785
2017	80	102	94	53	75	71	64	72	83	65	78	78	915
2016	93	96	154	125	99	83	96	118	114	117	109	97	1301
2015	102	163	126	108	96	103	125	84	107	138	106	95	1353
2014	149	107	95	179	147	164	125	132	165	135	138	113	1649
2013	165	162	118	159	124	124	158	176	156	164	129	137	1772
2012	131	135	144	151	162	129	163	138	150	176	193	138	1810

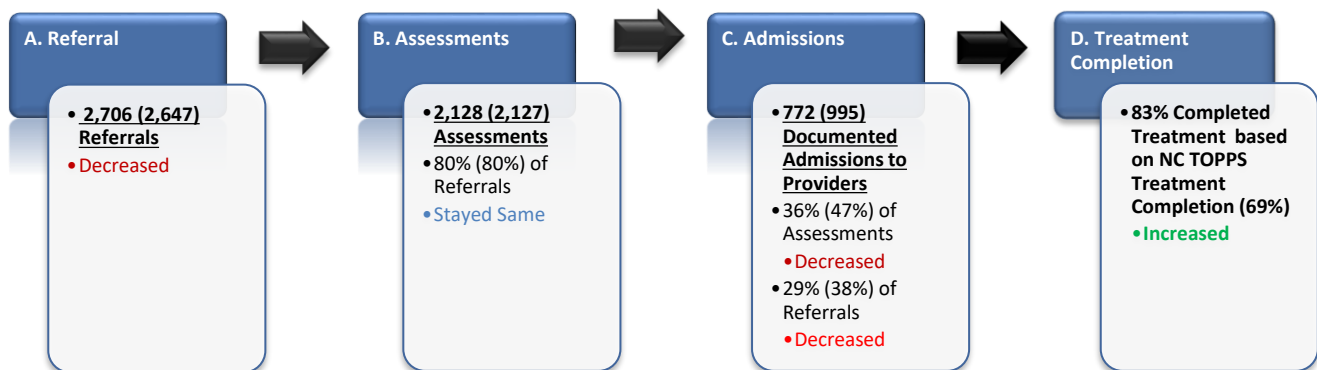

Discharge Completion Rates for JJSAMHP across Fiscal Years 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019

Another area that has been outlined is percentage of youth who have successfully completed treatment across the fiscal years. NC-TOPPS (see Section D) data is completed by treatment providers for youth who initiate and complete treatment. The **Completed Treatment** group includes that youth who successfully completed treatment services. The **Did Not Complete Treatment** group includes that youth who never received any treatment/services, were discharged at the program initiative, refused treatment, incarcerated, and did not return as scheduled within 60 days. Youth who were moved to institutions other than juvenile justice, moved out of the area, changed to a service not required by NC-TOPPS and youth who died during the fiscal year were not included in either group. The percentage of youth who completed treatment was the same as in previous fiscal year.

Overall Process Numbers for JJSAMHP for 2018-2019

The graphic below outlines key process points for JJSAMHP over the last fiscal year in the following areas: a) the number of youth that had documented referrals from JJ to JJSAMHP assessment provider; b) the number of youth assessed and documented by a JJSAMHP provider; c) the number of youth admitted by a JJSAMHP provider (it is again noted that youth can be referred outside of partnership to a provider who is not tracking data and based on family choice and needs); and d) the percentage of youth who successfully completed treatment based on data provided to the state by providers (see this information below). **The numbers in parentheses represent previous fiscal year data (2017-2018).**

Additionally, there is data on the number of youth referred by JJ to a JJSAMHP provider (formerly MAJORS), and the number of youth who were assessed by a JJSAMHP provider for services. The next chart outlines this information over the last fiscal years. Notably, during Years 2007, 2008, 2009 (MAJORS), only youth with substance use issues were being tracked and in 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019 (JJSAMHP), youth with mental health issues were also tracked across multiple providers.

Fiscal Year Data of Youth Referred/ Served (Assessed)

JISAMHP Domain IV: Evidence Based Practices/Evidence Based Treatments

The fourth domain is usage of Evidence Based Practices/Treatments. All teams cite having providers that use evidence-based treatments within their service array. The most commonly reported EBP/EBTs are included in this report. The Evidence Based Practices/Treatments include: Multisystemic Therapy (MST), Trauma-Focused Cognitive Behavioral Therapy (TF-CBT), Global Appraisal of Individual Needs (GAIN), Seven Challenges, Child Behavior Checklist (CBCL), Multidimensional Family Therapy, Family Centered Therapy, Structured Psychotherapy for Adolescents Responding to Chronic Stress (SPARCS), Functional Family Therapy, Dialectical Behavior Therapy, Structural Family Therapy, Comprehensive Health Assessment for Teens (CHAT), Adolescent Community Reinforcement Approach (ACRA) and Seeking Safety. All of the listed areas are Evidence Based Treatments except the GAIN, CBCL and CHAT, which are Valid and Reliable Assessments. For more information on EBP's/EBT's, please refer the primer in the following link: <http://www.jisamhp.org/publications/>. There is also a good resource at the California Evidence Based Clearinghouse for Child Welfare at the following link: <http://www.cebc4cw.org/>

**Number of EBPs/EBTs noted in Provider Array by LME/LMO Sites-
Fiscal 2019**

JISAMHP Domain V: JCPC Involvement-Developing Recovery Oriented Systems of Care and Ensuring “Beyond Treatment” Activities

The last domain involves inclusion of Juvenile Crime Prevention Council (JCPC) programming, particularly with respect to Recovery Oriented Systems of Care (ROSC).

ROSC is defined as the following:

Recovery-oriented systems of care are designed to support individuals seeking to overcome substance use disorders across the lifespan. Participants at the Summit

declared, "There will be no wrong door to recovery" and also recognized that recovery-oriented systems of care need to provide "genuine, free and independent choice" (SAMHSA, 2004) among an array of treatment and recovery support options. Services should optimally be provided in flexible, unbundled packages that evolve over time to meet the changing needs of recovering individuals. (USDHHS, 2009)

For the purposes of JJSAMHP, the focus is to build upon treatment services to address the needs of not only youth with substance use issues, but also youth with mental health issues as well. This is described by Reclaiming Futures as "Beyond Treatment" and entails involvement in other community-based activities such as mentoring and leadership development to address the holistic needs of the youth and their families as recovery often includes natural supports and helps that can only be provided by the community. JJ leadership is involved with both JJSAMHP and the local JCPC team.

Section D: Activities and Accomplishments of JJSAMHP for Fiscal 2018-2019

This section outlines some of the key overall Activities and Accomplishments of the JJSAMHP for the 2018-2019 Fiscal Year. This will be detailed in four (4) areas that helped shape the review of activities: 1) Strengthen Partnerships, Communication, and Information Sharing; 2) Improve Data Reporting; 3) Provide Support for Training and Technical Assistance; and 4) Provide Support for Usage of Evidence Based Practices/Evidence Based Treatments/Best Practices. Each of these areas is outlined below.

1. Strengthen Cross-System Partnerships, Communication and Information Sharing

One of the goals for this fiscal year was to provide support for teams to continue their work in cross-system partnerships, including strengthening information sharing mechanism, documentation of activities, and providing opportunities for cross-system training and collaboration. Local teams meet at varying frequencies from quarterly to every week (for clinical staffing). This information can be found in the Compendium of Services that is updated at least once per quarter at <http://www.jjsamhp.org/publications/>. Additionally, the state level partnership meets to review and discuss the initiative and processes and to obtain and provide feedback. The main activities for JJSAMHP are highlighted below:

- A. Overall, there were a total of 14 Cross-System (Juvenile Justice, Behavioral Health Providers, LME/MCO representatives and others) trainings/meetings, including the regional meetings below. There were 532 documented attendees across the trainings/meetings. As in every year, one of the major activities for this fiscal year was the provision of Regional meetings. The state team developed a curriculum that focused on upcoming issues such as Medicaid Transformation, Raise the Age and working with Transitional Age youth.
 - a. The Regional meetings are noted below and include locations and number of participants. There was a total of 198 participants across the three meetings which represented a 13% increase in participation and attendance across each meeting is located below:
 - i. 4/29/19-Eastern-49 Cross System Team members
 - ii. 5/1/19-Western/Piedmont-84 Cross System Team members
 - iii. 5/13/2019-90 Cross System Team members
- B. UNCG worked with Seven Challenges developer and held a Mastery Counseling Training with Dr. Robert Schwebel with 60 clinicians in attendance on 5/14/2019
- C. UNCG worked with Dr. Brenden Hargett and held Trauma and African American Youth training (cofounded by the Kate B. Reynolds Charitable Trust) on two occasions and trained 36 practitioners
- D. UNCG worked with Dr. Chris Townsend on Trauma and African American boys training on June 5 for 83 Juvenile justice staff
- E. UNCG worked with Seeking Safety and coordinated training for 11 JJ staff (3-hour Orientation) and 30 clinicians (2-day training) on June 6 and 7

- F. UNCG provided other training such as orientation for new treatment providers, Process Improvement, data tracking training, cultural competency and implicit bias training, meeting with new area to be involved with JJBH (Johnston), team fitness training, SWOT training, etc.
- G. UNCG worked with North Carolina Families United and Youth Move to infuse Young Adult Transition training into regional meetings per request of the state team.
- H. UNCG worked with state DMHDDSAS and DPS partners to develop a detention support visit interview guide, conducted interviews and provided feedback to the state and local team. This information was also incorporated in the Spring Detention Substance Use services meeting held on May 21, 2019.
- I. There were 37 state level team meetings and other meetings that link to JJBH issues such as the Juvenile Justice Behavioral Health state team and subcommittee meetings, System of Care State Collaborative, and the Cross Area Substance Use Detention and Residential meetings.
- J. The Compendium of Services was maintained as a resource document through work with local teams (specifically LME/MCO liaisons). This year, the graduate student on the project contacted the liaisons to obtain information at least three times per year. The Compendium of Services outlines key team partners, juvenile justice youth served, services provided, referral, assessment, and treatment processes. The link to the Compendium is located at <http://www.jjsamhp.org/publications/>.
- K. It was important to continue to update the JJSAMHP website, including weekly updates of the Substance Use Residential beds for those in state seeking this resource for juvenile justice involved youth. The Residential census that is updated by UNCG students is at the following link: <http://www.jjsamhp.org/residential-census/>

2. Improve Data Reporting

This second area for the fiscal year was to improve already existing data reporting mechanisms to help increase the ability to describe local and state processes. This includes two forms of data: the monthly report that is required by the Division of LME/MCO partners and the collection of North Carolina Treatment Outcomes and Program Performance System that is required by providers:

- A. The teams continued to use the data system, Qualtrics, through UNCG to submit their monthly data reports. This allowed local teams to generate a report of their data at the time of submission. The main data points continue to be referrals, assessments, admissions, evidence based assessments and evidence based treatments.
- B. UNCG worked with teams on the data system and compliance/accuracy of data submissions. This includes training new liaisons since there were many staff changes through the year. Reports were generated and provided to state level partners and local teams when requested. The survey questions for the monthly reports are located in Appendix A.
- C. UNCG began a process this year on the web portal for linking data for teams through online submissions. This included working with UNCG IT to develop platform and questions and work with state team to streamline the questions. The pilot of this data system began in Fiscal 2020 (July, 2019).

- D. UNCG obtained, cleaned and linked NC-TOPPS data. This is to assist in providing more information about quality and treatment provided to youth who are admitted to services. UNCG provided end of previous fiscal year and mid-year information out to the state and local teams about NC-TOPPS data. NC-TOPPS interview forms can be found here:
<https://nctopps.ncdmh.net/dev/GettingStartedWithNCTOPPS.asp>
- E. The UNCG evaluation team continued to provide information to state and local team partners regarding the de-identified database in which access was granted in 2012 and continued during this fiscal year. Teams can access analyses per request and the questions are outlined in Appendix B.

3. Provide Support for Training and Technical Assistance

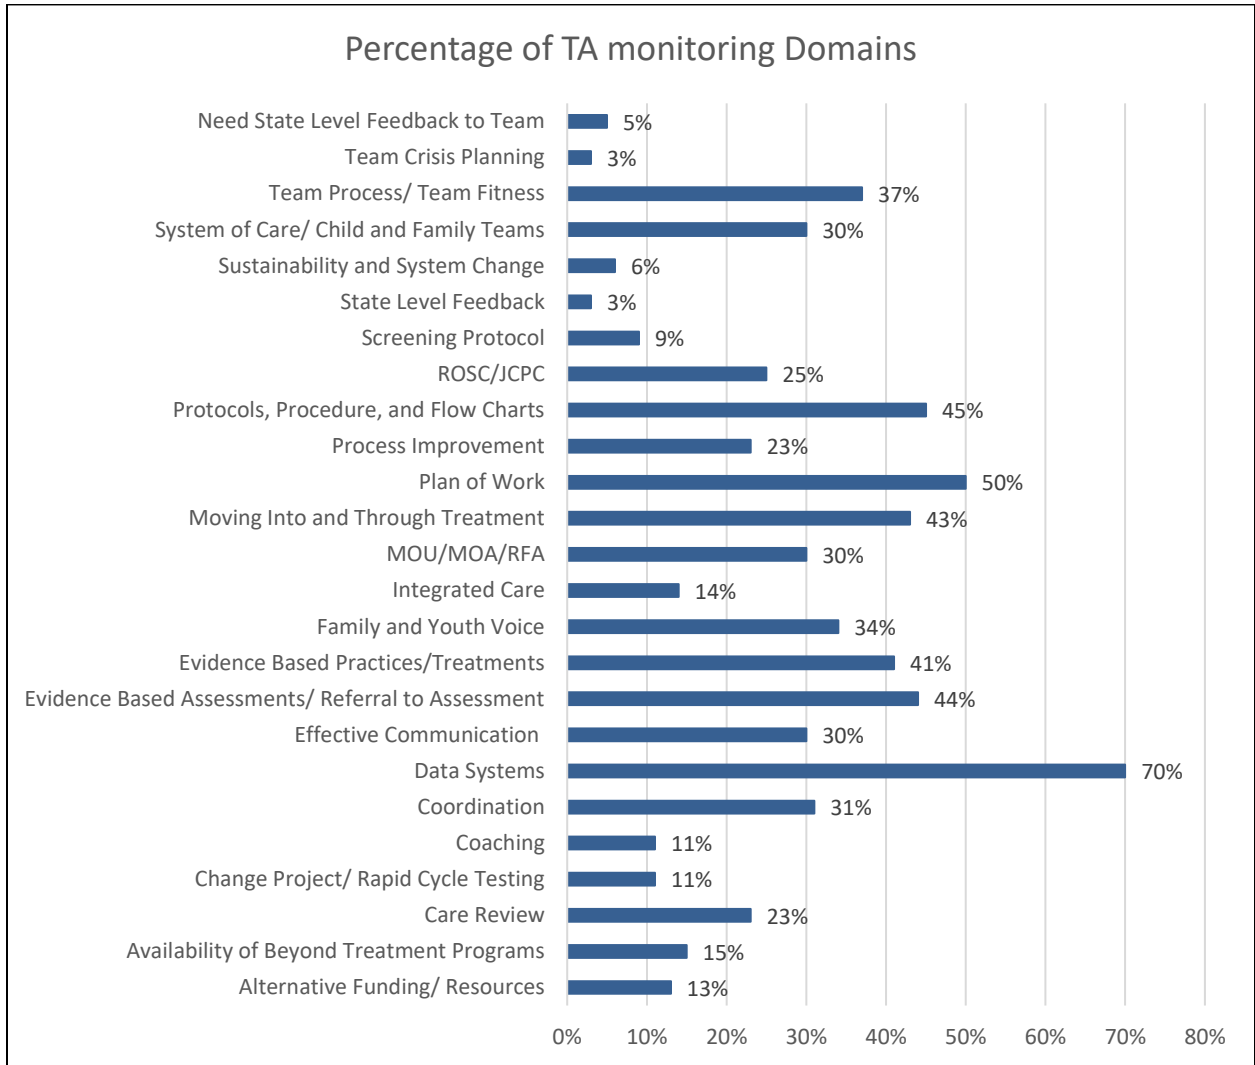

- A. Technical Assistance. Another activity of the JJSAMHP was to provide technical assistance directly to local teams. The state level partners requested that teams be visited at least two times during the year. There was a total of 137 site visits to teams from July, 2018 through June, 2019. These visits helped to identify barriers at the local team level and possible solutions/information from state level partners, information sharing on evidence based practices, and sharing of other team's processes as ways to address barriers and encourage use of funds to support processes. There were an additional 21 other substantial contacts that required data generation, research or work other than routine phone calls and questions. There were numerous emails and short phone calls that are not documented here but this was also provided to teams, particularly around evidence based treatment questions, data collection, or general JJSAMHP processes.

The following visits were completed by UNCG:

Type of Contact	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
On-Site Visits	1. 7/5/2018 Cardinal - Triad	37. 10/5/2018 Cardinal - Triad	68. 1/2/19- Sandhills-Guilford	109. Trillium Central

- B. TA updates were provided to the Division liaison. UNCG also tracked different areas of focus during team meetings. This information is in the graphic above with teams focusing most consistently on data systems.
- C. Additionally, there was continued support for sustaining 6 Reclaiming Futures teams including Alliance Cumberland, Partners North, Partners Central, Partners South, Sandhills Guilford, and Cardinal Mecklenburg.
- D. As noted in Section 1, UNCG provided or facilitated discipline specific training as noted here:

Trainings Completed During the Year			
Date	Name of Training	Total Participants	Location
7/26/18	JJSAMHP Orientation New Provider Agency Training	14	West End, NC
11/8/2018	Introduction to Cultural Competence: Exploring Challenging Conversations, Culture and Implicit Bias	22	Durham, NC
1/18/2019	Adolescent Substance Use trends for residential providers	11	UNCG
4/29/2019	JJBH Eastern Regional Meeting	49	Greenville Hilton
5/1/2019	JJBH Western/Piedmont Regional Meeting	84	Crowne Plaza Hickory
5/13/2019	JJBH Central Regional Meeting	90	Millennium Center
5/14/2019	Mastery Counseling for Clinicians	60	McKimmon Center
5/21/2019	Annual Detention Meeting	42	UNCG
5/30/2019	Trauma and African American Youth	21	UNCG
6/5/2019	Trauma and African American Boys	83	Stoneybrook Christian
6/6-6/7-2019	Seeking Safety Training JJ	11	Laureate Center
6/6-6/7-2019	Seeking Safety Training Clinicians	30	Laureate Center
6/21/2019	Trauma and African American Youth	15	McKimmon Center

4. Provide Support for Usage of Evidence Based Practices/Evidence Based Treatments and Best Practices

The goal is to encourage and support teams in the utilization of evidence based practices/evidence based treatments and opportunities for teams to increase their ability to provide more effective services to juvenile justice involved youth and their families. This entailed the following activities (See training section for actual support provided for training by JJSAMHP).

- A. Provided support to developing training based on provider surveys around trauma and brought in a new EBT-Seeking Safety-to which both clinicians and juvenile justice professionals were invited and attended.
- B. UNCG continued to research EBT/EBPs on behalf of the teams and problem solve around new treatments/practices being brought into the local community.

Section E: LOCAL TEAM PROCESSES

This section outlines all of the local team processes within each of the local JJSAMHP sites by LME/MCO. As a reminder, there are some sites where there is more than one team, and even differentiation within team based on Court District preferences. The following table provides a general overview of Evidence Based Assessment, Practices, and Treatments for each of the teams in which juvenile justice involved youth are engaged for JJSAMHP and only lists those for which at least two teams are utilizing this practice. It is noted that these are the practices based on the team's monthly data of what was actually done. More information on teams can be obtained from the Compendium of Services at <http://www.jjsamhp.org/publications/>. More information on evidence based practices can be found in a primer, also found in the publications link.

APPENDIX A – JJSAMHP MONTHLY DATA REPORT

JJSAMHP Monthly Data Survey

1. What is the LME/MCO Associated with this Report?

- Alliance Health -Cumberland
- Alliance Health -Durham
- Alliance Health -Wake
- Eastpointe-Kinston
- Eastpointe-Lumberton
- Eastpointe-Rocky Mount Site
- Partners Behavioral Health-North
- Partners Behavioral Health-Central
- Partners Behavioral Health-South
- Cardinal Innovations Healthcare-ACO Area
- Cardinal Innovations Healthcare-Five County-Four County
- Cardinal Innovations Healthcare-Halifax Area
- Cardinal Innovations Healthcare-Mecklenburg
- Cardinal Innovations Healthcare-Person Caswell Area
- Cardinal Innovations Healthcare-Piedmont
- Cardinal Innovations Healthcare-Triad Area
- Sandhills/Guilford-8 County
- Sandhills/Guilford-Guilford Area
- Trillium North
- Trillium Central
- Vaya Health

2. As data reporter, what is your name?

3. What is your agency name?

4. What is your title?

5. What is your email address?

6. What are the counties associated with this report?

7. What is the date of this report?

Month _____

Day _____

Year _____

8. For which month are you reporting this data?

____ July 2018

____ August 2018

____ September 2018

____ October 2018

____ November 2018

___ December 2018

___ January 2019

___ February 2019

___ March 2019

___ April 2019

___ May 2019

___ June 2019

9. JJSAMHP Only-Please put in the total number of youth who participate in the following activities during the month of this report.

___ Number of youth referred from JJ

___ Number of assessments completed during the month

___ Number of admissions to JJSAMHP providers during the month

___ Admissions by Non JJ providers

10. Please enter the total number of each type of assessment completed during the month of this report.

___ Total number of Global Appraisal of Individual Needs Assessments

___ Total number of Comprehensive Health Assessments for Teens

___ Total number of Child Behavior Checklists

___ Total number of Substance Abuse Subtle Screening Inventories

11. Please describe the type of juvenile-justice involvement for JJSAMHP admissions during the reporting month (total account for admissions only). DATA CHANGED MID-YEAR

___ # of Consultation youth referred by JJ during the month

___ # of Diversion with Contract youth referred by JJ during the month

___ # of Diversion without Contract youth referred by JJ during the month

___ # of Pre-Adjudication youth referred by JJ during the month

___ # of Adjudicated Delinquent youth referred by JJ during the month

___ # of Adjudicated Undisciplined youth referred by JJ during the month

___ # of Commitment status youth referred by JJ during the month

___ # of Post-Release Supervision youth referred by JJ during the month

___ # of youth with closed cases referred by JJ during the month

___ # of Intake youth referred by JJ during the month

___ # of other youth referred by JJ during the month

12. JJSAMHP-Please describe the type of evidence based treatment that will be provided for JJSAMHP admissions during the reporting month (total count for admissions only). As a reminder, these are for SU and/or MH EBTs and do not include Cognitive Behavioral Therapy or Motivational Interviewing as these are basic tenants of most other EBTs.

___ Adolescent Community Reinforcement Approach

___ Dialectical Behavior Therapy

___ Family Centered Therapy (model)

___ Functional Family Therapy

___ Motivational Enhancement/Cognitive Behavioral Therapy

___ Multidimensional Family Therapy

___ Seeking Safety

___ Seven Challenges

___ Structured Therapy for Adolescents Responding to Chronic Stress

___ Trauma-Focused Cognitive Behavioral Therapy

DETENTION ONLY DATA POINTS CHANGED MID-YEAR

1. DETENTION CENTER ONLY DATA –for this current report month (please leave blank if you are not required by the Division to report these activities):

_____ Total number of youth admitted to Detention Center

_____ Total number of referrals to DC SAS clinician

_____ Total number of youth enrolled with a community treatment provider at admission

_____ Total number of GAIN assessments (Quick, Core or Full Initial)

_____ Total number of youth participating in Brief Challenges

_____ Total number of youth participating in 7C sessions

_____ Total number of youth with primary Su diagnosis at discharge

_____ Total number of youth with primary MH diagnosis at discharge

_____ Total number of youth with no diagnosis at discharge

_____ Total number of youth at ASAM level III or higher

2. Other Detention Center Activities for the current reporting month (please leave blank if you are not required by the Division to report these activities):

Name of Activity _____

Total number of youth involved in activity _____

Name of Activity _____

Total number of youth involved in activity _____

Name of Activity _____

Total number of youth involved in activity _____

Name of Activity _____

Total number of youth involved in activity _____

APPENDIX B - Data Request Questions Provided to JJSAMHP Teams

NC-TOPPS Data Request Form for JJSAMHP or Juvenile Justice Partnership teams

1. What is the LME/MCO associated with this report? (If someone contacts us who is not an LME/MCO representative, we will contact the LME/MCO liaison for your team)

- Alliance Health-Cumberland
- Alliance Health -Durham
- Alliance Health -Wake
- Eastpointe-Kinston Site
- Eastpointe-Rocky Mount Site
- Eastpointe-Lumberton Site
- Partners Behavioral Health-North
- Partners Behavioral Health-Central
- Partners Behavioral Health-South

- Vaya Health

DATA REQUEST QUESTIONS

1. What is your name?
2. What is your agency name?
3. What is your title?
4. What is your email address?
5. What is the best phone number where you can be reached directly?
6. Which data would you like to include in the analyses?
 - County level (1)
 - District level (2)
 - MCO level (3)

8. What time period would you like to request?
 - July 2010-June 2011 (1)
 - July 2011-June 2012 (2)
 - July 2012-June 2013 (3)
 - July 2013-June 2014 (4)
 - July 2014-June 2015 (5)
 - July 2015-June 2016 (6)
 - July 2016-June 2017 (7)
 - July 2017-June 2018(8)
 - July 2018-June 2019(9)
 - Most Recent data from July 2019 until last data received by UNCG (9)
 - Multiple years or another time period-we will describe below in our question(s) section (10)

9. Which data would you like to examine?
 - Initial (1)
 - Episode Completion (2)
 - Both Initial and Episode Completion Together (3)

10. What questions would you like answered by using NC-TOPPS data? (Someone from the UNCG evaluation team- will follow up within a couple of business days)
